GERMAN DELEGATION

COCOM DOC 4144

Paris, September 15, 1960

COORDINATING COMMITTEE
MEMORANDUM BY THE GERMAN DELEGATION
ON THE EXPORT OF 400 7mm-DIAMETER
SHOTGUN CARTRIDGES TO RUMANIA

The German Delegation refer to their Memorandum COCOM DOC 4059 (see also DOC 4093) and have the honour to inform the Committee that the German authorities have received another application to license the export to Rumania of

400 7mm-Diameter SINOXID shotgun cartridges
in the value of \$ 70,--.

During the discussion of the previous case the Committee was divided upon the view if this ammunition is covered by item 3 ML or not. Since the German authorities have not yet reached a clear conclusion they submit the request as an ad-hoc-case reserving to request a redefinition of item 3 ML during the forthcoming list review to exclude without any doubt such ammunition from item 3. In view of the small quantity involved and due to the fact that it is requested for the present hunting season in Rumania the German Delegation would appreciate to have the views of the Committee on September 26, 1960
